Story あらすじ

After two years of hard training, the Straw Hat pirates are back together, first at the Sabaody Archipelago and then through Fish-Man Island to their next stage: the New World!!

Luffy and crew ally with Momonosuke's faction in order to defeat Kaido, one of the Four Emperors. They overcome hurdles to recruit allies for the raid, but the spy Kanjuro reveals his treachery and kidnaps Momonosuke. The allied

forces chase after him and decide to launch a sneak attack. With new powerful friends in tow, the raid on Onigashima begins!! While the Emperor's followers block the way on the island, Kaido's daughter Yamato shows up and swears to fight on Luffy's side. The Red-Scabbards samurai face off against Kaido on the roof of the castle, fighting to avenge their beloved Lord Oden. But Kaido steadily gains the upper hand... Luffy and others are heading for the roof too, but Kaido's henchmen stand in their way.

Q: Sensei, congratulations on reaching 1,000 chapters of *One Piece*. For volume 99, which I assume contains chapter 1,000, I have this message.

Start the SBS!

--Goemon

A: Gosh, thanks so much. A thousand chapters is such a milestone, so this volume is very special to...
Hey, you started the segment!! ㄟ

Q: Odacchi, check out this symbol: π . Do you know how to read that? It's pronounced "pi." Now please read the following statement.

Nami's $\pi\pi$ are the best! ㄟ ("Pai-pai" means boobs.)

--Sanadacchi

A: Sanada!! Get outta here!!! ㄟ
Listen, this is a very special volume, it's got chapter 1,000 in it!! Talk about a rocket start into depravity!! Talk about rocket $\pi\pi$!! Shut up!!! ㄟ
Man, I wish the PTA liked me.

Q: You casually revealed the name of Kaido's Devil Fruit in volume 98, so now you get to casually reveal the name of Kid's Devil Fruit!

--Takumiso

A: It's the Magnet-Magnet Fruit. Huh? Did I not say that before? He can control iron at will using magnet powers. I suppose I should be saying these things in the manga. I'll make sure to bring it up somewhere.

Q: I'd be grateful for life if you allowed Stelly to sit on the Empty Throne.

--Seito

A: No way.

Q: Please draw a personification of everyone's favorite, Yamato's side-boob!! --Yashirai

A: Okay, I'm good at this... Hey, I can't do that!!
 What is the personification of a side-BOOB?!
 (Well, I tried anyway.)
 Honestly, the number of postcards and letters I got ABOUT side-BOOB this, side-BOOB that! Next volume is volume 100, you guys!
 I'm not taking any of your dirty questions and prompts! We're going fully wholesome next time!!

Q: Odacchi! Please tell us Yamato's age, height, and favorite food! --Pumpkin

A: Now this is a proper question. I would love to answer questions like these. Yamato is 28 (born same year as Momonosuke), 9'8" tall (that's 2 Luffys) and loves to eat oden, of course. And also salmon (raw, whole).

Q: Hello, Oda Sensei. Congratulations on reaching the milestone of chapter 1,000!! I was wondering, did you make the layout of the chapter 1,000 cover illustration the same as chapter 100's on purpose?! I got goosebumps when I noticed that!! --Kinosan

A: That's right! Longtime readers might have noticed that, but people who are newer to the series probably haven't seen that one before. They were both such big milestones, I felt inspired to go back to it!

Q: In chapter 966, Roger and Rayleigh are holding Momonosuke and Hiyori and saying, "I haven't spent time with a baby in ages" and "Reminds me of the old days." Whose baby were they holding in the past?! I didn't see many women on Roger's ship...

--Count Deeno

A: Huh? They said that? Weird...? Uh...ignore that!! Please don't think about it! Fwee fwee fwood! (whistling)

Q: Odacchi, I noticed that when everyone's getting funky on the performance floor in chapter 978, there's a giraffe-based Gifter who's different from Kaku or the Headliner named Hamlet. Does that mean Smile fruits are able to create many of the same powers over and over? Does it not matter if there's already a user of that power from a natural Devil Fruit?

--Taro in the Dark

A: All right. Smile fruits are artificial Devil Fruits, so they're not at all like the real thing. Let's go through the process.

★ SAD on Punk Hazard

Liquid containing various animal bloodline elements.

★ Smile Factory on Dressrosa

Feeding SAD to plants causes them to grow strange fruit.

★ On Wano

The imported fruit has a 10% chance of giving animal powers.

In other words, they have nothing to do with real Devil Fruits. That's why there are multiple Gifters of the same animal. Bloodline Elements can only be extracted from a living biological specimen, which is why Smile fruits don't create Mythical, Logia, or Paramythia types. That's the limit of Caesar's scientific powers. But perhaps the super-genius Vegapunk has been conducting research that goes beyond this... Or perhaps not...

Q: Odacchi! What's the difference between the Spider-Spider Fruit and the Bug-Bug Fruit?

--Shun Ootsuki

A: The Bug-Bug Fruit gives insect powers. Spiders are arachnids, not insects. That's why it's the Spider-Spider Fruit.

Q: Question for Oda Sensei! What are your three favorite Smile user designs?
--Taro

A: Ah, I see. Man, those Smile Fruit users are funny, huh? Are they BOZOS or what?! Wow, this is a hard question to answer! Well, I'll start with **#3** and that's Speed, a.k.a. Horselina! When you hear the word "centaur," you think of a BIG Burly horse man, BUT I wanted to make her a sexy lady. Since simple horse legs wouldn't really fit the Bill, I tried to emphasize her thighs to look more human, and yet she has that wacky horse face when she smiles. It's the unexpected difference between the two sides that makes her lovable.

SPEED

Next up, **#2**! The signature member of the "Why are you growing that way?" series, Hamlet!! The poor giraffe neck is trembling from supporting his weight. It's an absolute failure of Biology, and yet his speech is very positive and princely. You gotta love this guy.

HAMLET

Lastly, **#1**!! The man with the lion on his tummy, Holdem!

HOLDDEM

You might say that the entire reason I invented the Smile Fruits was to draw this man. A long time ago, there was a robot anime called *Future Robot Daltanious*. It had a lion robot and a human robot that fused together into a BIGGER robot with the lion's face on its chest!! When I was a kid, it was the coolest thing. I wanted the Chogokin figure so bad! And that desire led me to create this character here in my own story!! LOL. Oh, that reminds

me that I also loved a centaur robot toy called Daibajin. Maybe that's why I like Horselina so much? Basically, all Smile users are combining robots!! They're awesome!!

SO IT WOULD SEEM THAT DESTINY ORDAINED...

...WERE BOUND TO CLASH AT SOME POINT.

...KAIDO AND THE WORST GENERATION...

...THERE WOULD BE NO TELLING WHAT MIGHT HAPPEN TO THE WORLD NEXT!! BUT THIS IS AN UNNECESSARY CONCERN.

...IF, BY SOME CHANCE, TWO OF THE FOUR EMPERORS SHOULD FALL...

AT A MOMENT WHEN THE STATE OF THE WORLD HANGS IN THE BALANCE...

Q: What style of topknot is Kozuki Oden sporting? What's the name of it? Is it the "Perfect Fit for Wano Pillows" knot?

--Taro in the Dark

A: Perfect fit for Wano pillows? It's the other way around! Japanese culture can be such a funny thing. Do you know what pillows were like back in the days when people tied up their hair like that? Since the hair was tied on top, the pillows looked like this. In fact, I remember my grandma using one of them.

◀ Now, Oden originally looked like this in my planning sketches. The parts from top to bottom are a chewy konnyaku cake, hard-boiled egg, and ganmodoki tofu fritter, all ingredients in an oden hot-pot. Only the ganmodoki survived! In other words, this would be a "tremendously tasteful tofu topknot."

Q: A question for Odacchi... Or more accurately, a suggestion!! A while ago, you did an "SBS with the Voice Actors" series, where you took questions for the voice actors of the Straw Hats! Well, how about we bring that back for the newest member of the crew, Jinbe's actor Katsuhisa Hoki?

--Pitera

A: Ooh, that's good. That was a long time ago, LOL. It started with Luffy's Mayumi Tanaka in volume 52, and ended in volume 64, with the nine members of the crew at the time. So we're going to take questions for Jinbe's voice actor, **Katsuhisa Hoki!!** He's a classy, dandy gentleman, just like Jinbe! Ask him anything! And that's it for this volume's SBS! Next up, volume 100!!
